

(c) *Exceptions.* For purposes of this section a company shall not be considered to be an “electric utility” company if it:

(1) Is a subsidiary of an electric utility holding company which is exempt by rule or order adopted or issued pursuant to section 3(a)(3) or 3(a)(5) of the Public Utility Holding Company Act of 1935, 15 U.S.C. 79c(a)(3), 79c(a)(5); or

(2) Is declared not to be an electric utility company by rule or order of the Securities and Exchange Commission pursuant to section 2(a)(3)(A) of the Public Utility Holding Company Act of 1935, 15 U.S.C. 79b(a)(3)(A).

[45 FR 17972, Mar. 20, 1980, as amended by Order 70-B, 45 FR 52780, Aug. 8, 1980; Order 70-D, 46 FR 11253, Feb. 6, 1981]

**§ 292.207 Procedures for obtaining qualifying status.**

(a) *Self-certification and pre-authorized Commission recertification*—(1) *Self-certification.* (i) A small power production facility or cogeneration facility that meets the applicable criteria established in § 292.203 is a qualifying facility.

(ii) The owner or operator of a facility or its representative self-certifying under this section must file with the Commission, and concurrently serve on each electric utility with which it expects to interconnect, transmit or sell electric energy to or purchase supplementary, standby, back-up and maintenance power, and the State regulatory authority of each state where the facility and each affected utility is located, a notice of self-certification which contains a completed Form 556.

(iii) Subsequent notices of self-recertification for the same facility may reference prior notices or prior Commission certifications, and need only refer to changes which have occurred with respect to the facility since the prior notice or the prior Commission certification.

(iv) Notices of self-certification or self-recertification will not be published in the FEDERAL REGISTER.

(2) *Pre-authorized Commission recertification.* (i) For purposes of paragraph (b) of this section, the following alterations or modifications are not considered substantial alterations or modifications and will not result in revoca-

tion of qualifying status previously granted by the Commission pursuant to paragraph (b) of this section:

(A) A change which does not affect the upstream ownership of the facility;

(B) A change in the installation or operation date;

(C) A change in the manufacturer of the power generation equipment selected for the facility's installation when there is no change in capacity or operating characteristics;

(D) A change in the location of a cogeneration facility, or a small power production facility, if the new location would not cause the facility to violate the 80 MW limitation of § 292.204(a)(1);

(E) A decrease in the amount of natural gas or oil or any change in the amount of other fuel used by a cogeneration facility, provided that the efficiency value and the operating value calculation for the facility remain at or above the values stated when the certification or recertification order was issued;

(F) A decrease in the amount of fossil fuel used by a small power production facility;

(G) A change in the primary energy source of a small power production facility, provided that the facility continues to comply with the requirements of § 292.204;

(H) An additional use of a cogeneration facility's thermal output, if the original uses are as stated when the certification order was issued;

(I) An increase in the efficiency value of a cogeneration facility or an increase in the operating value of a cogeneration facility determined in accordance with § 292.205;

(J) A decrease in the power production capacity of a small power production facility;

(K) A change in the power production capacity of a cogeneration facility if the efficiency value and the operating value calculation for the facility remain at or above the values stated when the certification or recertification order was issued; or

(L) A change in the purchaser of the cogeneration facility's thermal output, when there is no change in the specified thermal application or process.

(ii) The owner or operator of a qualifying facility that has been certified

under paragraph (b) of this section must file with the Commission notice of each change listed in this subsection, and must concurrently serve a copy of such notice on each electric utility with which it expects to interconnect, transmit or sell electric energy to, or purchase supplementary, standby, back-up and maintenance power, and the State regulatory authority of each state where the facility and each affected electric utility is located.

(b) *Optional procedure*—(1) *Application for Commission certification.* In lieu of the certification procedures in paragraph (a) of this section, an owner or operator of a facility or its representative may file with the Commission an application for Commission certification that the facility is a qualifying facility. The application must be accompanied by the fee prescribed by part 381 of this chapter.

(2) *General contents of application.* The application must include a completed Form 556.

(3) *Commission action.* (i) Within 90 days of the later of the filing of an application or the filing of a supplement, amendment or other change to the application, the Commission will either: inform the applicant that the application is deficient; or issue an order granting or denying the application; or toll the time for issuance of an order. Any order denying certification shall identify the specific requirements which were not met. If the Commission does not act within 90 days of the date of the latest filing, the application shall be deemed to have been granted.

(ii) For purposes of paragraph (b) of this section, the date an application is filed is the date by which the Office of the Secretary has received all of the information and the appropriate filing fee necessary to comply with the requirements of this Part.

(4) *Notice.* (i) Applications for certification filed under paragraph (b) of this section must include a form of notice of the request for certification suitable for publication in the FEDERAL REGISTER, as well as a copy of the same notice in electronic format (in either ASCII text, WordPerfect 5.1 for DOS or WordPerfect 5.2 for Windows format) on a 3½" diskette marked with the

name of the applicant and the words "Notice of Filing." The notice must state the applicant's name, the date of the application, a description of the facility for which qualification is sought and, if known, the names of the electric utilities to which the facility expects to interconnect, transmit or sell electric energy, or from which the facility expects to purchase supplementary, standby, back-up and maintenance power. This description must include:

(A) A statement indicating whether such facility is a small power production facility or a cogeneration facility;

(B) The primary energy source used or to be used by the facility;

(C) The power production equipment and capacity of the facility; and

(D) The location of the facility.

(ii) The notice must be in the following form:

(Name of Applicant)

Docket No. QF-

NOTICE OF APPLICATION FOR COMMISSION CERTIFICATION OF QUALIFYING STATUS OF A (SMALL POWER PRODUCTION) (COGENERATION) FACILITY

On (date application was filed), (name and address of applicant) filed with the Federal Energy Regulatory Commission an application for certification (or recertification) of a facility as a qualifying (small power production) (cogeneration) facility pursuant to § 292.207(b) of the Commission's regulations. No determination has been made that the submittal constitutes a complete filing.

[Description of facility.]

[Names of the electric utilities with which the facility expects to interconnect, transmit or sell electric energy to, or purchase supplementary, standby, back-up and maintenance power (if known).]

Any person who wishes to be heard or to object to granting qualifying status should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, DC 20426, in accordance with rules 211 and 214 of the Commission's Rules of Practice and Procedure. A motion or protest must be filed within \_\_\_\_ days after the date of publication of this notice and must be served on the applicant. Protests will be considered by the Commission in determining the appropriate action to be taken but will not serve to make protestants parties to the proceeding. A person who wishes to become a party must

file a motion to intervene. Copies of this application are on file with the Commission and are available for public inspection.

(c) *Notice requirements for facilities of 500 kW or more.* An electric utility is not required to purchase electric energy from a facility with a design capacity of 500 kW or more until 90 days after the facility notifies the utility that it is a qualifying facility, or 90 days after the facility has applied to the Commission under paragraph (b) of this section.

(d) *Revocation of qualifying status.*  
(1)(i) If a qualifying facility fails to conform with any material facts or representations presented by the cogenerator or small power producer in its submittals to the Commission, the notice of self-certification of the qualifying status of the facility, pre-authorized Commission re-certification notice, or Commission order certifying the qualifying status of the facility may no longer be relied upon. At that point, if the facility continues to conform to the Commission's qualifying criteria under this part, the cogenerator or small power producer may file either a notice of self-recertification of qualifying status pursuant to the requirements of paragraph (a)(1) of this section, a pre-authorized Commission recertification notice pursuant to the requirements of paragraph (a)(2) of this section, or an application for Commission recertification pursuant to the requirements of paragraph (b) of this section, as appropriate.

(ii) The Commission may, on its own motion or on the motion of any person, revoke the qualifying status of a facility that has been certified under paragraph (b) of this section, if the facility fails to conform to any of the Commission's qualifying facility criteria under this part.

(iii) The Commission may revoke the qualifying status of a self-certified qualifying facility upon the filing of a petition for a declaratory order that the self-certified qualifying facility does not meet applicable requirements for qualifying facilities.

(2) Prior to undertaking any substantial alteration or modification of a qualifying facility which has been certified under paragraph (b) of this section, a small power producer or co-

generator may apply to the Commission for a determination that the proposed alteration or modification will not result in a revocation of qualifying status. This application for Commission recertification of qualifying status should be submitted in accordance with paragraph (b) of this section.

[45 FR 17972, Mar. 20, 1980, as amended by Order 70-A, 45 FR 33603, May 20, 1980; Order 70-B, 45 FR 52780, Aug. 8, 1980; Order 225, 47 FR 19058, May 3, 1982; Order 435, 50 FR 40358, Oct. 3, 1985; Order 494, 53 FR 15381, Apr. 29, 1988; Order 575, 60 FR 4858, Jan. 25, 1995; Order 593, 62 FR 1283, Jan. 9, 1997]

**§ 292.208 Special requirements for hydroelectric small power production facilities located at a new dam or diversion.**

(a) A hydroelectric small power production facility that impounds or diverts the water of a natural watercourse by means of a new dam or diversion (as that term is defined in § 292.202(p)) is a qualifying facility only if it meets the requirements of:

- (1) Paragraph (b) of this section;
- (2) Section 292.203(c); and
- (3) Part 4 of this chapter.

(b) A hydroelectric small power production described in paragraph (a) is a qualifying facility only if:

(1) The Commission finds, at the time it issues the license or exemption, that the project will not have a substantial adverse effect on the environment (as that term is defined in § 292.202(q)), including recreation and water quality;

(2) The Commission finds, at the time the application for the license or exemption is accepted for filing under § 4.32 of this chapter, that the project is not located on any segment of a natural watercourse which:

(i) Is included, or designated for potential inclusion in, a State or National wild and scenic river system; or

(ii) The State has determined, in accordance with applicable State law, to possess unique natural, recreational, cultural or scenic attributes which would be adversely affected by hydroelectric development; and

(3) The project meets the terms and conditions set by the appropriate fish and wildlife agencies under the same procedures as provided for under section 30(c) of the Federal Power Act.
